SUMMARY

Software engineer on Ramco Systems' rTask.ai team, building an AI-first, multi-tenant helpdesk across a React/TypeScript front end, a Node.js API layer and a Python RAG service. Claude Certified Architect (Professional) who ships LLM-backed features, hybrid search and evaluation suites test-first.

SKILLS

Programming: Python, TypeScript, C, Kotlin, SQL (PostgreSQL), MongoDB, React, Node.js & Express, FastAPI, HTML/CSS, Git
AI & Agents: Claude API & Agent SDK, agentic workflows, prompt engineering, RAG (hybrid BM25 + vector search), Milvus, ChromaDB, Cohere embeddings, OpenAI/Gemini/Bedrock LLMs, LLM evaluation & routing
Testing & Tooling: Playwright, Vitest, Jest, manual test design, Claude Code, Cursor, Windsurf, Antigravity, AI Studio
Soft Skills: Communication, Adaptability, Teamwork, Critical Thinking, Problem Solving

EXPERIENCE

- Ramco Systems** — Project Trainee, RXD (rTask.ai product engineering) **Jul 2026 – Present**
- Feature delivery:** Shipped 35+ merge requests across the React/TypeScript front end and Node.js/Express back end; consolidated a 23-branch Knowledge Base Connectors UI batch into one delivery MR (65 files, +7,154/–1,231 lines) with the 3,100+ test Vitest suite green.
 - Knowledge Base Connectors:** Owned a 200-issue fix list across Notion, Confluence, Google Drive, SharePoint and Azure connectors through six-plus review rounds, and built a Git/GitHub-driven delivery tracker that reported 152 issues live on UAT.
 - RAG search migration:** Executed the production Milvus BM25 hybrid-search migration for the retrieval service: 92/92 collections migrated and 257 loaded with zero failures, driven by a bash CLI written for the run.
 - Back-end correctness:** Root-caused fail-closed audience-rule evaluation defects and fixed them with 19- and 31-spec Jest suites; traced a white-screen crash to invalid CSS id selectors in the design system and fixed it at the source.
 - LLM routing evaluation:** Benchmarked TypeSafe Jev as an LLM-free intent router on a 50-case suite: 100% action and agent-selection accuracy, p95 latency under 660 ms, and about two-thirds of intents routable without an LLM call.
- Ramco Systems** — QA Intern **Apr 2026 – Jul 2026**
- Manual testing:** Designed and executed structured test cases for the KPI and OKR set-up modules against business requirements; logged defects in the internal tracking tool.
 - Test automation:** Built a Playwright (TypeScript) framework with fixtures, page objects and a ten-suite KPI regression pack (CRUD, validations, search, restrictions, performance, compatibility), plus handover documentation.

EDUCATION

- B.E. in Computer Science Engineering** **2022 – 2026**
Sai Vidya Institute of Technology, Bengaluru CGPA: 8.85
- PUC** — Narayana PU College, Bengaluru Score: 74% | **2020 – 2022**
- SSLC** — Narayana E-Techno School, Bengaluru Score: 83% | **2019 – 2020**

PROJECTS

- QTrack – QA Test-Tracking Dashboard, Ramco Systems** ([Live](#)) **Apr 2026 – Jul 2026**
Designed, built and deployed alone: a role-based dashboard where every test suite, run, owner and outcome lives in one place, used daily by Ramco's testing teams. Automated its first screen with Playwright.
- Orbital Academy – Physics-First Rocket & Orbit Simulator** ([Live](#) | [Code](#)) **2026**
TypeScript simulator on a real physics engine: 30 real engines, 34 stages, a go/no-go weather poll, webcast-style mission control, insertion burn.
- Claude Marketplace – Claude Code Plugin Catalogue** ([Live](#) | [Code](#)) **2026**
Curated marketplace with a live dashboard: 423 agents, 346 slash commands, 885 skills and 92 MCP servers packaged as native Claude Code plugins, plus community plugins from their public upstreams.
- AI Based Culinary Recommendation System** (final-year project) **Feb 2025 – Dec 2025**
Generates personalised recipes from a user's ingredients and preferences behind a dynamic UI; built for scalability and real-time response.

CERTIFICATIONS

- Claude Certified Architect – Professional – *Anthropic* ([Verify](#)) Sep 2026
- Claude Certified Associate – Foundations – *Anthropic* ([Verify](#)) Sep 2026
- Claude 101 and Claude Code 101 – *Anthropic Academy* Sep 2026
- ML Using Python, Project Management with Agile, [UNIX & Linux OS Fundamentals](#) – *Infosys Springboard* 2024 – 2025
- [AI & LLM](#) – *Udemy* Oct 2024
