PROFESSIONAL SUMMARY

Software Engineer at Ramco Systems building Chia AI, an AI-first multi-tenant helpdesk, across React/TypeScript, Node.js, and a Python RAG service. Claude Certified Architect (Professional) delivering LLM features, hybrid search, and test automation.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Kotlin, C, SQL, HTML, CSS

Front End: React, Next.js, Vite, Tailwind CSS, GSAP, Framer Motion, Jetpack Compose

Back End and Data: Node.js, Express, FastAPI, Flask, PostgreSQL, MongoDB, Firebase, Milvus, ChromaDB, Docker

AI and Agents: Claude API and Agent SDK, agentic workflows, prompt engineering, RAG (BM25, embeddings), LLM evaluation and routing, OpenAI, Gemini, Bedrock

Testing and Tooling: Playwright, Vitest, Jest, manual test design, Git, GitHub, Vercel, n8n, Claude Code, Cursor, Windsurf

WORK EXPERIENCE

Project Trainee, RXD (Chia AI Product Engineering)

Jul 2026 – Present

Ramco Systems, Bengaluru, India

- Executed the production migration of the Python RAG retrieval service behind Chia AI, Ramco's AI-first helpdesk, to Milvus BM25 hybrid search: 92 collections moved with zero failures using a purpose-built bash CLI.
- Evaluated TypeSafe Jev as an LLM-free intent router on a 50-case benchmark (100% action and agent accuracy, p95 latency under 660 ms) and showed that about 67% of intents can skip the LLM call.
- Redesigned the Knowledge Base Connectors UI and UX for Notion, Confluence, Google Drive, SharePoint, and Azure, resolving a 200-issue fix list across 6 review rounds; shipped 35+ merge requests with the 3,100-test Vitest suite green.
- Built the complete front end of an internal component platform (15 screens, a design-system seed with light and dark themes, Playwright verification) and the animated 3D knowledge-base explorer UI for the ERP team.
- Delivered Vibe Check, an employee mood-pulse product, with HR in 4 days from kickoff to a pilot-ready prototype: a daily one-question card, a role-based dashboard, a 257-question engine, Microsoft sign-in, and 95 unit and 22 end-to-end tests.
- Designed and taught an 8-session agentic AI programme for colleagues with 38 live demos and a live quiz app; rebuilt React screens as low-code modules and coached a colleague through to adoption.

QA Intern

Apr 2026 – Jul 2026

Ramco Systems, Bengaluru, India

- Developed QTrack, a role-based test-tracking dashboard, single-handedly and deployed it internally; the testing teams use it daily in place of handwritten status reports.
- Created an Excel-driven Playwright (TypeScript) framework that generates specs from test cases, runs them in parallel on Chrome and Edge, and reports against case IDs: 127 cases in 10 suites, plus a starter kit adopted by colleagues.

PROJECTS

QTrack, QA Test-Tracking Dashboard (internal, Ramco Systems)

Apr 2026 – Jul 2026

Role-based dashboard that tracks every test suite, run, owner, and outcome in one place; first screen automated with Playwright.

Orbital Academy, Physics-First Rocket and Orbit Simulator ([Live](#) | [Code](#))

Aug 2026 – Sep 2026

TypeScript simulator on a real physics engine: 30 real engines, 34 stages, go/no-go weather poll, webcast-style mission control.

Claude Marketplace, Claude Code Plugin Catalog ([Live](#) | [Code](#))

Jul 2026 – Sep 2026

Marketplace and live dashboard packaging 423 agents, 346 commands, 885 skills, and 92 MCP servers as Claude Code plugins.

Component Platform, Front End and Public Blueprint ([Live](#))

Jul 2026 – Aug 2026

Platform that turns a React repository into a searchable, previewable, editable component library; built all 15 screens and the design-system seed.

EDUCATION

Bachelor of Engineering, Computer Science, Sai Vidya Institute of Technology, Bengaluru

CGPA 8.85/10 | 2022 – 2026

Pre-University Course (Class XII), Narayana PU College, Bengaluru

74% | 2020 – 2022

Secondary School Certificate (Class X), Narayana E-Techno School, Bengaluru

83% | 2019 – 2020

CERTIFICATIONS

- Claude Certified Architect – Professional, Anthropic ([Verify](#)) Sep 2026
- Claude Certified Associate – Foundations, Anthropic ([Verify](#)) Sep 2026
- Claude 101 and Claude Code 101, Anthropic Academy ([View](#) | [View](#)) Sep 2026
- Network Security Essentials, Infosys Springboard ([View](#)) Oct 2025
- Machine Learning using Python, Infosys Springboard ([View](#)) May 2025
- AI and LLM, Udemy ([View](#)) Oct 2024
